Portfolio: <https://ana-cro-portfolio.vercel.app/>

Summary

Growth-focused engineer with 5+ years of experience combining frontend development, experimentation, analytics, and conversion optimization to improve digital experiences.

Experienced in designing and implementing A/B tests, analyzing user behavior, identifying friction points, and translating insights into measurable business outcomes. Skilled at collaborating across product, marketing, UX, and engineering teams to drive growth through data-informed decision making.

Bridges the gap between technical implementation and experimentation strategy, with hands-on experience building scalable web experiences while optimizing customer journeys through behavioral analysis and testing.

Experience

SEP 2023 - PRESENT

BigCommerce, Remote – *Web Developer / CRO & Experimentation*

- Led **experimentation initiatives** across high-traffic marketing websites, contributing to a 20% increase in free trial conversions.
- Conducted **behavioral analysis** to identify friction points and opportunities to improve user engagement and conversion performance.
- Designed and launched **A/B tests** focused on messaging, layouts, pricing sections, banners, and onboarding experiences using **Amplitude and Segment**.
- Analyzed **experiment performance, conversion metrics, and user behavior data** to generate insights and optimization recommendations.
- Collaborated with product, UX, and marketing teams to improve **customer journeys** through **experimentation and data-driven decision** making.
- Improved technical **SEO, Core Web Vitals, and site performance** across marketing properties.
- Implemented automated testing with **Playwright** and performance monitoring workflows using **Lighthouse CI** and **GitHub Actions**.
- Built scalable frontend experiences using **React, Next.js, Tailwind, TypeScript** and **GraphQL**.

JUN 2022 - SEP 2023

AgileThought, Remote – *Frontend Developer*

- Collaborated with UX, design, and product teams during a large-scale rebranding initiative focused on improving **digital user experiences**.
- Delivered frontend solutions using **React, Gatsby, GraphQL, TypeScript, and Tailwind CSS**.
- Worked within **component-driven** architectures and shared design patterns across digital experiences.

DEC 2020 - JUN 2022

Freelance, Remote – *Frontend Developer*

- Designed and developed websites and **digital experiences** for small businesses.
- Improved user experience, site usability, and **customer journeys through frontend** enhancements and optimization initiatives.
- Integrated backend services with **Firebase and Strapi**.
- Implemented secure payment systems and **customer-facing functionality**.

Experimentation & Optimization

A/B Testing • CRO • Behavioral Analysis • User Journey Analysis • Growth Experimentation

Analytics & Research

Amplitude • Google Analytics • Segment • Funnel Analysis • User Journey Analysis • Performance Monitoring

Engineering

React • Next.js • TypeScript • JavaScript • GraphQL • REST APIs

Tailwind CSS • Playwright • Jest • GitHub Actions • Lighthouse CI

Education

AUG 2012 - AUG 2016

Universidad Nacional Autónoma de México, Mexico – *Degree Communication*

Certifications

APR 2022 – *JavaScript Algorithms and Data Structures*

JUN 2023 – *React Native*

MAY 2026 – *Get Started Using Google Analytics*
